

Chameleon

This unique cleaner has been formulated with penetrants, cleaners and inhibited rust removers in a clinging formula. Its natural thick viscosity allows it to adhere to the sides of the toilet bowl long enough for the proper use of a bowl mop. This product changes color as it cleans going from green to blue. This product is excellent for removing scale, rust, calcium deposits and other discolorations from bath tubs, wash basins, shower stalls, toilet bowls, urinals and other surfaces.

FEATURES

- *Ready to use liquid
- *Caustic-Free
- *Non-Flammable

APPLICATIONS

- *Toilets
- *Urinals

TECHNICAL DATA

Dilution	Ready to use
DOT.....	Corrosive
