

Orange Float

Orange Float is a 100% pure orange solvent which will replace the petroleum distillates being used by many sewage treatment facilities. This product is designed to float on the surface and dissolve grease and other organic matter found in lift stations, wet wells and sewage lines. Also used to dissolve grease accumulation in grease traps. This product contains no petroleum distillates and no emulsifiers. This material has a natural fragrance which make it a useful odor counteractant, in addition to being a pleasant solvent to use.

FEATURES

- *100% active
- *Fast acting
- *Acid-Free

APPLICATIONS

- *Floating degreaser
- *Tar and asphalt remover

TECHNICAL DATA

Dilution	Ready to use
DOT.....	Combustable
