

Pot & Pan Soap

This liquid dishwashing concentrate is ideal for industrial and institutional hand cleaning where performance is a must and economy is desired. The combination of biodegradable synthetic detergents and wetting agents breaks up the heaviest encrustations on pots and pans, yet is gentle to the hands. Because it contains no soap, this product will not water-spot glassware or leave a film. It forms long-lasting suds without scum in hard water, and rinses freely and cleans thoroughly. Pot & Pan Soap is recommended for use in restaurants, cafeterias, lounges, institutions, hospitals, schools and all other hand dishwashing applications. Its gentle-to-the-hands action and high quality satisfy the most discriminating user. Its economical price assures its acceptance by the closest budgeted institution.

FEATURES

- *Biodegradeable
- *Cost effective
- *Solvent-Free
- *Non-Caustic
- *Phosphate-Free

APPLICATIONS

- *Hand dishwashing liquid
