

Thunderbolt

Thunderbolt is a liquid compound specifically formulated for specialized heavy-duty cleaning requirements. The formulation includes emulsifiers and solvents in highly concentrated form and is compounded so that high alkalinity is maintained in spite of dilution. Thunderbolt is an excellent concrete cleaner and may also be used to clean air filters, exhaust hoods, conveyers, boiler rooms, and road equipment. Thunderbolt may also be utilized in dip tanks for any metal cleaning process other than aluminum.

FEATURES

- *Concentrated liquid
- *Fast acting
- *Acid-Free
- *Biodegradeable

APPLICATIONS

- *Degrease vehicles
- *Clean houses
- *Clean brick
- *Clean engines

TECHNICAL DATA

Dilution	Varies
DOT.....	Corrosive
Odor.....	Butyl
pH.....	12.5-13.4
Physical appearance.....	Red liquid
