

Viraseptic

Viraseptic is a phosphate free formulation designed to provide effective cleaning, deodorizing, sanitization and disinfection specifically for hospitals, nursing homes, schools, food processing plants, food service establishments and other institutions where housekeeping is of prime importance in controlling the hazard of cross contamination. Viraseptic, when used as directed is formulated to disinfect inanimate hard surfaces such as walls, floors, sink tops, toilet bowls, tables, chairs, telephones, and bed frames. Viraseptic deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls and other areas which are prone to odors caused by microorganisms. In addition Viraseptic sanitizes previously cleaned and rinsed non-porous food contact surfaces such as tanks, chopping blocks, counter tops, drinking glasses and eating utensils.

FEATURES

- *Concentrated liquid
- *Disinfects as it cleans
- *Caustic-Free
- *Non-Flammable
- *Non-Acid
- *Sanitizes

APPLICATIONS

- *Floors
- *Walls
- *Counter tops
- *Utensils
- *Food preparation areas

TECHNICAL DATA

Dilution.....	2 oz. per gallon
DOT.....	Not regulated
Odor.....	Bland
pH Concentrate.....	11.0-12.0
Physical appearance.....	Colorless liquid
Pounds per gallon.....	8.4
